10th standard
Completed in 2008

About Me

I am an enthusiastic, self-motivated, reliable, responsible and hard working person. I am a mature team worker and adaptable to all challenging situations. I am able to work well both in a team environment as well as using own initiative. I am able to work well under pressure and adhere to strict deadlines.

My projects

Chat App

A messenger app is any app that enables a private messaging function between two or more people. With more and more messenger apps popping up every day, this type of technology is quickly becoming the most popular way to send text-based messages, replacing SMS and MMS as the preference of most consumers.

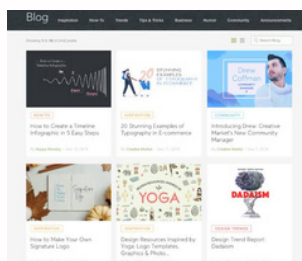

Pizza Delivery

Pizza delivery apps service allows customers to pick from different flavours of pizza from their favourite restaurant and with the pizzaconstructor feature they can customize their pizza by adding toppings, spices, ingredients etc. according to their taste, and place an order.

Docket App

Microsoft To Do is a task management app to help you stay organized and manage your day-to-day. You can use Microsoft To Do to make shopping lists or task lists, take notes, record collections, plan an event, or set reminders to increase your productivity and focus on what matters to you.

BLOGGER APP

The Blogger mobile app allows you to post, edit, save, and view your blog posts. Anyone with Android 5.0 and up can download the app. Important: To post with the Blogger mobile app, you'll need to already have a Google Account and a blog created from a computer.
